We are pleased to release the 2012 calendar based on Hindu dharma shastra and drika siddhanta. This calendar is specially prepared for the Greater Nadi, Fiji area, and it may not be applicable in other parts of the world. All time presented here is adjusted for Daylight Saving Time.

People usually align the Hindu festivals with the English dates based on the Indian calendar. They think that if an Indian calendar says "Janmasthanam" on a certain date, say September 2nd 2010, then it will appear as September 2nd everywhere in the world. The USA is 10:30 to 15:30 hours behind India, Likewise Fiji is 6:30 minutes ahead of Indian Standard Time, so some people will think it will also come the next day in the USA, i.e. September 3rd 2010, and previous day in Fiji. They also argue that their family priest in India has told them to celebrate on this particular date and according to him the Indian calendar will apply to all places in the world. This is a completely wrong assumption. If the Earth was flat then you can use Indian calendar everywhere as sunrise sunset will happen all places equally. We won't have any timezones and the world will have only one timezone. Surya Siddhanta, Maharishi Vashista, Bhaskaracharya taught us to prepare the panchangam based on the longitude, latitude of the place you live for these reasons you cannot bring a calendar from India and use abroad.

The English date and changes at midnight; whereas the Hindu date (or Tithi) and day does not change at midnight. Hindu day changes at Sunrise. All days are from one Sunrise to another Sunrise. Sunday will start at one Sunrise and end at the next Sunrise. The Hindu date – the Tithi changes depending on the position of the Sun and Moon. It can change anytime between two Sunrises. That is to say that if Prathama Tithi ends today at 23:02 it does not mean that Dwitiya Tithi will end tomorrow at the same time. It can end at 18:00, 18:09 or later.

Tithi: In the lunar calendar the Moon takes a month for each revolution around the Earth. The lunar calendar is divided into two groups called Pakshas. The first one is called Krishna Paksha (or dark fortnight) or waning moon. The second is called Shukla Paksha (or bright fortnight) or waxing moon. Each Paksha is divided into 15 Tithis. The first 14 Tithis are the Sanskrit numbers from 1 to 14 (Prathama, Dwitiya etc). The 15th Tithi of Shukla Paksha is Poornima (full Moon) & the 15th of the Krishna Paksha is Amavasya (Moon is not visible as it is closest to the Sun).

Lunar Month: A lunar month consists of 30 Tithis and each Tithi then corresponds to the time taken by the Moon to move 12 degrees with respect to the Sun. Krishna Paksha Tithis are in the darker color and Shukla Paksha Tithis are mentioned in the red color. Names of lunar months are Chaitra, Vaishakh, Jyestha, Ashadha, Shraavana, Bhadrapada, Ashwayuja, Kartika, Margasira, Pushya, Maha, and Phalguna.

Solar Month: A solar month begins when the Sun leaves one rasi and moves into the next. The solar month names are based on 12 signs, they are Mesha, Vrisbhba, Mithuna, Karka, Simha, Kanya, Tula, Vrischika, Dhanush, Makara, Kumbha, and Mina. This system is widely used in Tamilnadu, Kerala, West Bengal, Orrisa, Punjab and Assam.

Nakshatra: The path of the moon around earth is divided into 27 segments or Nakshatras. A nakshatra changes when the moon leaves one of these 27 segments and enters the next. Nakshatras are in *italics*. They are Ashwini, Bharani, Kritika, Rohini, Mrigashirsh, Ardra, Punarvasu, Pushya, Ashlesha, Magha, Poorva Phalguni, Uttara Phalguni, Hasta, Chitra, Swati, Vishakha, Anuradha, Jyestha, Moola, Poorva Shadha, Uttara Shadha, Shraavan, Dhanishtha, Shatabhisha, Poorva Bhadra, Uttara Bhadra and Revati.

Timings listed in the Calendar: The Tithi & Nakshatra times indicate a time when the Tithi or Nakshatra ends. The Panchanga uses the Vedic definition of a day, i.e., A day starts with Sunrise and ends with the subsequent Sunrise. Thus, a Tithi with a time of 29:00 indicates that the Tithi ends past midnight but before the next Sunrise at 5:00 AM (29:00 – 24:00) on the next calendar day. Hence 24:00 means 00:00 hours of the next day, 25:00 means 1:00 AM of the next day, and 29:00 means 5:00 AM of the next day. This is standard time notation for any Panchangam. The time for Sun's samkramana is when Sun will enter that rasi or sign on that day. e.g. Makara 4:36 means Sun is entering Makara rasi at 4 hour 36 minute. All other times are the ending times.

Rahukalam / Sunrise / Sunset Table: This calendar has rahukalam, sunrise & sunset table as well. These are calculated for Greater Nadi, Fiji area.

How festival dates are determined?

The usual rule to observe a festival is to check the Tithi prevailing at the Sunrise. Each festival has different

rules. For example Ganesha Chaturthi has to be observed when the Chaturthi Tithi is observed during the 8th/15th part of the dinmana. The dinmana is the difference between local Sunset and Sunrise. If Chaturthi is not prevailing during that period then take the second day.

For example, if one Tithi is observed at moonrise in India it may or may not exist during moonrise on the same day in a different part of the world. If you are in America then it will be observed on previous day or the next day if you are in Japan, Fiji, Australia and other countries. For example if a total lunar eclipse is visible in India at 5:00 AM it will happen on the previous day in the USA. For these reasons Indian Panchangam you bring from India cannot be used outside of India.

Uttarayana / Dakshinayana: The season occur based on earth's position around the Sun. This is due to Earth's tilt of 23.45 degrees. The Earth circles around Sun with this tilt. When the tilt is facing the Sun we get summer and when the tilt is away from the Sun we get winter. Because of this tilt it seems like the Sun travels north and south of the equator. The Uttarayana is the Sun appearing to move north. The Dakshinayana is the Sun appearing to move towards South. This causes rise to seasons and dependent on equinoxes and solstices.

There is a common misconception that Makar Samkranti is the Uttarayana. This is because at one point in time Sayana and Nirayana Zodiac were same. Every year equinoxes slides by 50 seconds due to precision of equinoxes, giving birth to Ayanamsa and causing Makar Samkranti to slide further. As a result if you think Makar Samkranti is Uttarayana then as it is sliding it will come in June after 9000 years. However Makar Samkranti still holds importance in our rituals as a Samkranti. All Drika Panchanga makers will use the position of the tropical Sun to determine Uttarayana and Dakshinayana. Hence January 14th isn't Uttarayana. Actual Uttarayana occurs on December 21st/22nd of every year. For more details please visit <http://www.mypanchang.com> or write to shastriji@mypanchang.com.

About myPanchang.com: myPanchang.com is the leading panchang maker providing the most accurate panchangam in English and various Indian languages and panchangam for over more than 394 cities all over the world based on highly accurate driga ganitha or thiruganitha. Most temples in the world rely on myPanchang.com for accurate Panchang data and festival observance times. Please visit myPanchang.com for more details. If you have any questions about confusion about any festival please contact mypanchang.com

According to the Puranas, during the Samudra Manthan, a pot of poison emerged from the ocean. The gods and the demons were terrified as it could destroy the entire world. When they ran to Lord Shiva for help, he in order to protect the World drank the deadly poison but held it in his throat instead of swallowing it. Shivratri celebrates this event by which Shiva saved the world.</p>

Visit mypachang.com for details.</p> <p>Akshaya Trithiya, or Akha Teej, is a highly auspicious day. As per Hindu astrology and almanac, each second on the Akshaya Trithiya day is auspicious. It is said that there is no need to look for a 'muhurat' on the day. The word Akshaya means 'that which never diminishes' and the day is ideal for beginning new ventures as it is believed that all investments on this day appreciates. The Pandavas received the Akshaya Pathram from Lord Krishna on this day.</p>

SANATAN PARVA SUCHI 2012

Hindu Purnimant Calendar for Fiji based on Nadi's Longitude/Latitude

Purnimant
Jyeshtha - Ashaadha
Vrishabha - Mithuna

SUN	MON	TUE	WED	THU	FRI	SAT
<p>Hari Shayani Ekadashi is the day when Lord Hari or Vishnu retires to Ksheer Sagar (Ocean of Milk), rests there till four months and comes back to Vaikunth Vas on Shukla Paksha Ekadashi in Kartik Month. The Shukla Paksha Ekadashi of Kartik Month is called as Prabodhani Ekadashi. The period from Hari Shayani Ekadashi to Prabhodhani Ekadashi is called as Chaturmas (Four Months). As Lord Vishnu, the presorvor of life rests in Ksheer Sagar so no pious and auspicious activities like marriage etc. are carried out in Chaturmas.</p>			<p>The Indian Calendar isn't applicable in FIJI due to Longitude, Latitude, and other Difference. Visit mypachang.com for details.</p>		<p>Karadyan Nombu, or Savitri Nonbu Vritham, is a Tamil observance in which married woman prays for the well being and long life of her husband. Similar Vrata in North India is Karwa Chauth. in Gujarat & Maharastra -- Vata Savitri.</p>

Visit mypachang.com for details.</p>	<p>Ganesha Chaturthi is celebrated as the birthday of Lord Ganesha. Parvati created Ganesha out of sandalwood paste and breathed life into the figure. She then set him to stand guard at her door while she bathed. However, while she bathed, Lord Shiva returned and as Ganesha didn't know him, he didn't allow him to enter. Lord Shiva became enraged and severed the head of the child and entered his house. After realizing that he had beheaded his own son, Lord Shiva fixed the head of an elephant in place of Ganesha's head.</p>			<p>1</p> <p>Bhadrapada (Adhika) Kr Prathama 25:45+ Shatabhisha 11:57</p>

Visit mypachang.com for details.</p>	<p>Diwali is the day when King Rama's coronation was celebrated in Ayodhya after his war with Ravana, the demon king of Lanka. By order of the royal families of Ayodhya and Mithila, the kingdom of which Sita was princess, the cities and far-flung boundaries of these kingdoms were lit up with rows of lamps, glittering on dark nights to welcome home the divine king Rama and his queen Sita after 14 years of exile.</p>		<p>Happy Diwali and Happy New Year</p>	<p>1</p> <p>Kartik Kr Krishna Paksha Dvitiya 12:46 Krittika 14:52</p>	<p>2</p>  <p>Karwa Chauth</p> <p>Sankathara Chaturthi Tritiia 15:29 Rohini 18:02</p>	<p>3</p> <p>Chaturthi 18:09 Mrigashirsha 21:08</p>

Visit mypachang.com for details.		According to Padma Purana, the female energy of Lord Vishnu slayed demon Muran and protects Devas. This happened on the shukla ekadasi during the sun's journey in the Dhanur rasi. Impressed by the act, Lord Vishnu gives her the boon that those who worship Ekadashi on the day of her victory over Muran would reach Vaikunth.		1 Margashira Kr Dvitiya 08:02 Aardra full night
